CAREER OBJECTIVE

Motivated Computer Science student at Itahari International College with hands-on experience in Core Java, Spring Boot, and RESTful API development. Passionate about building secure and scalable backend systems using modern Java technologies. Seeking a Java Developer internship or entry-level backend role where I can apply my skills to real-world products and grow under experienced mentorship.

EDUCATION

BSc (Hons) Computing <i>Itahari International College, Nepal</i>	2024 - present
Higher Secondary Education (+2 Science) <i>Sushma Secondary School, Nepal</i>	Graduated: 2023

PROJECTS

Authentication System (Stack: Spring Boot, Spring Security, Spring Data JPA)

- Built a Spring Boot authentication system implementing JWT authentication.
- Designed fine-grained role and permission management enabling flexible access control across multiple user types.
- Implemented server-side input validation to prevent malformed requests, improving API reliability and security posture.
- Structured the codebase for maintainability using layered architecture separating security, business logic, and persistence concerns.
- Built a service layer for performing CRUD operations and implemented Pagination support for some API.

Geocoding Service (Stack: Spring Boot, Spring Security, Spring Data JPA)

- Built a Spring Boot REST API that accepts a plain-text address as input and returns its latitude and longitude coordinates.
- Integrated Swagger UI for interactive API documentation and testing, reducing manual testing.
- Implemented a global exception handler to standardize error responses across all endpoints, improving API consistency and debuggability.

SKILLS

Languages	Java (Core Java, Java 8)
Backend	Spring Boot, Spring Data JPA, Spring Security (Basic), Servlets, REST APIs
Frontend	Kotlin, Jetpack Compose (Basics)
Database	PostgreSQL
Tools	Git, GitHub, Swagger, Maven, Postman, Linux
Soft Skills	Problem-Solving, Self-directed Learning, Adaptability
